## Personal Summary

I am a highly motivated engineer student, currently finishing third year on Warsaw Technical University. Hard-working and looking for challenges. During three months holiday I would like to gain new experiences and meet interesting personalities. I easily fit into any routine, which I find very convenient especially for physical work. My education can be useful in various ways, I am able to think outside the box and solve any problem. I would be a valuable asset in your company

## Skills

- Capable to work in team
- Able to work long hours
- Driving license for cars
- Speaking English fluently (C1 level, two Cambridge's certificates)
- Speaking German on communicative level
- Able to work under pressure
- Good communication skills
